OFFICE OF THE CHIEF ENGINEER.

Notice dated 6th April 1918.

The Chief Engineer of Mysore, while in Bangalore and not specially engaged, will be glad to hear petitioners on every Thursday, if it is not a Gazetted holiday, between 12 noon and 3 P.M.

2. Government officers and other gentlemen having business may call at the Chief Engineer's Office between 3 and 5 P.M., the same day.

3. During the absence of the Chief Engineer on tour from headquarters, or while he is otherwise engaged, the Deputy Chief Engineer will receive visitors and attend to them.

S. CADAMBI,
Chief Engineer of Mysore.

KRISHNARAJASAGARA WORKS.

Notice is hereby given that sealed tenders will be received in the Office of the Superintending Engineer, Krishnarajasagara up to 25th July 1918, for the supply of charcoal of the kind noted in the specification. An approximate estimate of the quantity is given below and it is not guaranteed. The supply of charcoal shall commence from 1st August 1918.

2. The conditions may be seen at the Superintending Engineer's Office, Krishnarajasagara Works, on all week days between the hours of 11 A.M. and 6 P.M.

3. The tenders should be submitted on printed forms which may be obtained from the Superintending Engineer's Office. It should be accompanied by a statement in the form given below, showing the rates at which supply would be made.

4. Each tender must be accompanied by a deposit of Rs. 500 in cash or Government Promissory Notes, as earnest money, and be superscribed "Tender for the supply of charcoal for the North Bank of Krishnarajasagara Works," in default of which, it will be rejected.

5. The final acceptance of any tender will rest with the Chief Engineer, who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

6. The successful competitor will be required to execute the usual contract bond, within eight days of the acceptance of the tender, in default of which his tender will be considered as cancelled and his earnest money forfeited.

7. The name of the successful tenderer will be put up on the notice board of the Superintending Engineer's Office. Enquiries regarding the acceptance or rejection of a tender will not be replied.

8. On acceptance of one of the tenders, the earnest money of the rejected tenderers will be returned.

9. The quantity to be supplied from 1st August 1918 to 31st August 1919 shall be at 95 tons per month.

SPECIFICATION.

1. The wood to be used for burning charcoal must be of hard variety such as, Jolly, Thoṗla, Devadari, Honne, Chigari, Hinddarane or some other approved kind.

2. The charcoal prepared out of soft wood and containing small pieces; is liable to be rejected or paid for at a lower rate at the discretion of the Officer in charge.

3. The Superintending Engineer or his representative will inspect the charcoal immediately after it is weighed and stacked and any quantity found unfit for work will be rejected, which the contractor shall arrange to remove at once from the stacking yard.

4. The contractor shall arrange to watch the charcoal brought to site till it is weighed, stacked and accepted by the Superintending Engineer or his representative. The contractor or his accredited agent must be present at the time of measurement but payment will not be made till the contractor signs the bill in token of acceptance.

5. The quantity of charcoal to be supplied from the date of signing the regular contract bond up to 31st August 1919 is 95 tons per month, a ton being equal to 2,240 pounds, And the quality shall be such as a ton of charcoal shall be when dry not more than 110 C. ft. in volume.

6. Should the contractor fail to supply the stipulated quantity of charcoal in two consecutive months, the Superintending Engineer can order for collectfon by separate agency at the risk of the contractor or cancel his contract, crediting the whole or part of the reserved amount to Government.

7. A reserve of Rs. 5 per cent will be withheld from the contractor's bill and it will not be paid till the accounts are finally settled.

8. The Superintending Engineer or his representatfve is at liberty to manufacture charcoal by other agencies from the trees in tank bed or other Government trees within the area of the Krishnarajasagara Works.
